Hello Grady,

From the 2003 till the Lord has been blessing our ministry, by His grace our ministry is expanding day by day, the Lord has blessed us with the construction of 3 stored building in which we are running class rooms for the native pastors training as well we are housing orphan and semi orphan children, right now we are taking care of 40 girls.

And through our training program we are training native Christian leaders in church planting and well offering degrees like Batchelor of Theology and and Master of Theology, our curriculum includes EBI based curriculum.

The other part of our training consist of training Kannada speaking young people from the state of Karnataka which is Kannada medium. Please find the pictures which speaks of how great our Lord is.

Thank you Grady and Anette for all your prayers
Solomon
