President George W. Bush
The White House

Dear President Bush,

I am writing you to recommend Rev. Grady Mayeaux as director of the Faith Based Program in Georgia. God has called me to be an instrument in the building of a Christian School. This is a task that I cannot do alone. When receiving the call I immediately ask God to send the people that would help make the vision a reality. One of the first people that God sent me was Grady Mayeaux. He and his wife Annette have helped in more ways than you could ever imagine. Every time I contact them I've witnessed their generosity in helping others. They are making phone calls, running deliveries, working hands on with the mentally challenged and the list goes on. They are truly servants of the Lord! Please prayerfully consider Rev. Grady when making this important decision. I thank you from the bottom of my heart for the stand that you take in the Lord. Thank you for developing this Faith Based program, it will help a lot of people do what God has given them the vision to do. This in turn will benefit communities all over the United States and the World. I am praying for God's blessings on you and your family.

Sincerely,

Terri W. Knight
