INCORPORATED

December 01, 2009

My name is Warren Was, and I serve as the international director of InnerChange Incorporated, a subordinate ministry of Exegetical Institute, Inc. Our ministry has taken us to just about every continent on earth, where our teams have trained and equipped leaders in ministry. InnerChange's ministry spans many denominations and languages groups and has been involved in relief efforts in places such as India and Sri Lanka, Kenya, Peru and Ecuador. Grady and Annette have been an integral part of our ministry efforts in those places, especially during those times where the struggles have been for survival. For example, in 2004 after the world's worst tsunami hit India, Sri Lanka and other surrounding countries, Grady, Annette and their son Russell, sought out the necessary supplies and participated with us putting together water purification systems. Those units made it possible for people to survive who otherwise would have died without clean drinking water. They helped us in the due diligence necessary in securing medical supplies to assist triage personal in each of those affected countries. Without their efforts literally thousands would have died due to polluted and contaminated water supplies or from infections due to the lack of proper medication. Grady actually helped me create a water purification system that was easily transportable and very effective in filtering out impurities to produce potable water. By taking advantage of their abundant sunshine and constant wind we brought solar panels and wind turbine generators that Grady helped secure, and they generated the necessary electrical power to run the purification units. The Mayeaux family braved the cold of our American winter as we worked outside intentionally in difficult conditions so that we could work out all of the kinks, making sure each system would work once we got there. You should have seen the faces and listened to the testimonies of doctors, nurses, village leaders and officials who said our relief efforts were literally the difference between life and death for whole villages. Throughout 2003 and 2004 Grady and Annette's counsel helped us as we prepared for our trips to carry on our ministry, and we participated with them to present Solomon Bajja with his earned Doctorate in 2003 after he successfully completed his course of studies with Exegetical. Solomon returned to India and has continued his ministry where once again Grady and Exegetical have provided for those in need in India.

I understand that the years 2003 and 2004 are the years brought into question concerning the viability of Exegetical Institute, Inc. as a functioning 501 C3 ministry, but let me assure you that in the years both prior to 2003 and after 2004, Grady, Annette and Exegetical as a whole have been an important part of InnerChange's ministry. Grady has been there to give his wisdom and counsel, which has allowed InnerChange to impact the live of many thousands of people around the world.

I am grateful that Exegetical Institute, Inc. has allowed InnerChange Incorporated to be a part of its organization. As part of that family, I trust that together we will continue to impact our world for Jesus Christ and bring wholeness to those who are afflicted and without direction or hope.

I remain God's servant.

With the leadership and guidance of Exegetical Institute, Inc and Dr Grady and Mrs. Annette we were able to answer God's call by establishing Living Springs Ministries. It took several years of prayers and a great amount of planning and without the Mayeaux's we would not have been able to start our ministry. The availability of short courses offered by Dr Grady on Leadership and Starting Ministries and Outreach Programs helped us open our doors with confidence.

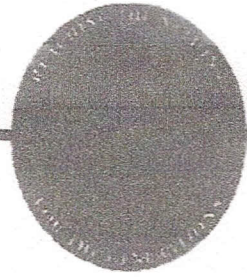

By becoming a part of Exegetical Institute we were able to open a Christian school, with grades Pre-K, Kindergarten and fourth and sixth grade. We also teach French.

We are able to run a tutoring program for students that are below grade level or need help to catch up. We teach art, music, and drama from a Christian perspective rather than the street music that encourages sex and violence.

Living Springs Ministries help with our neighborhood food bank, where we as a school pack the groceries and collect canned goods to replenish the shelves for the food bank. We also collect clothing and personal items for anyone that is in need of these items.

Exegetical Institute and the Mayeaux's make it possible for us to help others and to teach and train others how to be good helpers. They offer strength and encouragement to all of us, which allows us to continue each day doing the task before us.

Dear Annette,

I am writing this letter to thank you for all you have done for our ministry by making it possible to become a 501c3 through your organization. During 2004 you were a great help to us as we continued our ministry and you provided domestic contacts for us.

During the year of 2004 we were able to facilitate and host conference and ministry outreach events in Ukraine. We had roughly 12 teams come from various churches and schools. Once these teams arrived in Ukraine we provided food, shelter, teaching, and built relationships with local contacts to allow for the coming year to host more Pastor's Conferences to teach the people of Ukraine how they should conduct their daily lives. We also expanded our work into other regions of Ukraine and focused on orphanages for special needs children.

Thank you kindly,

Robert E. Bruist
